Nursing

A career in nursing provides a wide variety of job opportunities. Nurses practice in many settings (hospitals, long term care facilities, community agencies, clinics, schools) and care for all age groups. Ready to get started?

Apply for Barton Nursing

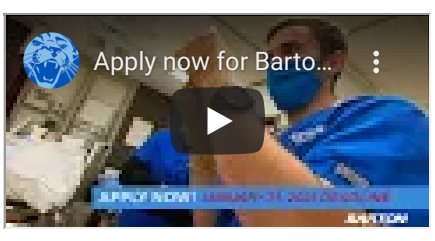
The 2022-2023 school year applications are now closed. Applications for the 2023-2024 school year will open in October.

About Barton Nursing

Barton offers 2 types of programs for people wanting to enter the field of nursing: Certificate in Practical Nursing (PN) and an Associates in Applied Science Degree in Nursing (ADN).

Whether you are interested in becoming an LPN or an RN Barton Community College can meet your needs. We welcome your interest in nursing and encourage you to come in to discuss your educational possibilities and take a tour of our new nursing area.

If you are not planning to enter the nursing program at Barton, but want to take classes at Barton before transferring to a four-year institution to obtain your Bachelor's in Nursing, please contact Advisement Center at advisement@bartonccc.edu or (620) 792-9225 for advising assistance. Students should also contact the college/university to where they are transferring concerning degree requirements within the appropriate department or college.



What does Barton offer?

- Practical Nurse (PN) program: Certificate (45 credit hours)
- Registered Nurse (RN) program: Associate of Applied Science Degree
- Well-rounded and demanding coursework
  - Prepares students with nursing skills needed to start their careers
  - Provides nursing education from pre-birth to death
- Clinical partnerships allow students to gain nursing experiences in the various aspects of nursing including obstetrics, pediatrics, mental health, intensive care, and medical-surgical units.
- State and nationally affiliated Barton Nursing Club allows students to interact with other students and network with health care professionals.
- Faculty members with experience in nursing, up-to-date education in nursing skills and teaching techniques.
- Excellent new facilities including two simulation labs.

Practical Nurse (PN) Program	Registered Nurse (RN) Program
A student completes the first two semesters of the program to earn a PN certificate and is eligible to take the NCLEX-PN® to become Licensed Practical Nurse. The graduate can then decide to continue their education or enter the work force.	When the LPN wants to continue their education they may apply for the second year of the nursing program, graduates will receive the Associate in Applied Science degree and is eligible to take the NCLEX-RN® to become a Registered Nurse.
Practical Nurses care for the sick, injured, persons with disabilities or convalescent. They bring their caring, sympathetic natures to hospitals, home health care services, nursing care facilities, physicians' offices and other health care providers and agencies. PNs work under the direction of physicians and registered nurses.	Registered Nurses are health care professionals responsible for implementing the practice of nursing through the use of the nursing process in concert with other health care professionals. RNs work as patient advocates for the care and recovery of the sick and maintenance of their health. RNs use the nursing process to assess, plan, implement, and evaluate nursing care of the sick and injured. RNs also provide advice and emotional support to patient's family members.
Certificate, 45 credit hours	Associate of Applied Science Degree
