Indicator 1: Students will have the skills and knowledge required for successful entry into the workplace.

Indicator 3: Students will have the skills and knowledge necessary to maintain, advance, or change their employment or occupation.

- **By linking Barton's training programs to our industry partners we are ensuring students are meeting the standards, knowledge and skills required to enter into the workforce.**
- **Academic and Career Technical Education programs continue to work to develop Program Learning Outcomes. The Program Learning Outcomes drive what a student should be able to demonstrate in terms of knowledge, skills, and abilities upon completion of the program. The assessment of these outcomes results in information that program leaders can use to guide programmatic adjustments.**
- **Academic and Career Technical Education programs also continue to work to develop Course Outcomes that exhibit what knowledge, skills, and abilities students should achieve upon completion of a specific course.**
- **Industry required or recommended licensures and certifications also ensure that we are providing the appropriate training, skills and knowledge in our programs.**
- **10 of our programs achieved a 100% Certification/Licensure pass rate (Early Childhood, Certiport MOS-Access, Certiport MOS – Excel, EMS Instructor/Coordinator, Welding GTAW, Welding GMAW, Registered Nursing, Practical Nursing, Pharmacy Technician and Medical Assistant). A total of 20 programs were above 80% in their Certification/Licensure pass rates.**

Indicator 1: Students will have the skills and knowledge required for successful entry into the workplace.

Indicator 3: Students will have the skills and knowledge necessary to maintain, advance, or change their employment or occupation.

## **Indicator 2:**

**Students will have the work ethics, discipline, and collaborative skills necessary to be successful in the workplace.**

- **Essential Skills Program – Implemented college-wide in 2021. Incorporates and emphasizes skills such as: Accountability, Communications, Critical Thinking, Customer Service, Professionalism and Self-Management into courses.**
- **First report has been completed using feedback from faculty across all campuses. Over 78 faculty participated in the survey and provided information on which Essential Skill they reinforced, what the classroom/assignment activity included and any challenges they faced. This information was then provided to all faculty to use as a resource for future Essential Skills activities in their courses.**
