Developmental Education

Developmental education at Barton Community College provides students with an opportunity to improve their basic math, reading, and/or writing skills.

Barton continually updates courses in the developmental program to develop more efficient instructional methods to help students achieve college-readiness and to decrease the cost to students in time and in money.

[Barton ACE](#): Barton's developmental courses allow students the flexibility to adjust time working on specific skills according to the amount of learning required for mastery. Individualized instruction addresses each student's specific strengths and weaknesses.
