2020-2021 REVENUE

2020-2021 EXPENDITURES

The charts above show Barton’s revenue sources and expenditures for Fiscal Year 2021. Previously, Barton maintained each of the three primary revenue sources at about a third each of the total. Reduced support from state aid has rendered that model unsustainable. The Board of Trustees prioritizes keeping the local tax burden low, and prides itself on having maintained the same mill levy for 14 years, with a strong cash reserve. However, this means the college must rely more on tuition and fees to support operations.
