Office of Origin: Vice President of Instruction

Contact: Coordinator of Community Education

# BARTON COMMUNITY COLLEGE

# **College Advantage**

### Earn College Credit at Your High School. Here's How:

- On-site classes: taught either by a high school instructor with the College's credentials or by a full-or-adjunct instructor who travels to the high school. See below to <u>find classes at your school!</u>
- Partnered Online classes: a 100% online college class supervised by a high school mentor.

All classes are offered for college credit when taken, but high schools decide which classes are counted as high school credit. It is the student's responsibility to double-check with a high school official about dual credit. Courses vary by high school. Look for your school below!
