The Strategic Planning Framework is the context within which Barton Community College operates to achieve its mission and vision. This framework is the foundation for a strategic management approach through which Barton’s leadership team takes responsibility for leading the institution through change, defining the knowledge critical to planning strategically for the college’s future, deciding how to interpret that knowledge and how to apply it to plans and decisions that lead to continuous improvement of Barton’s programs, services and operations. In this model planners at all levels of the college are able to determine performance “gaps” at the institutional and divisional/department levels and implement initiatives to close those gaps. Senior administrators, with input from internal stakeholders, are able to allocate resources to support the Strategic Plan and ongoing operations that are essential to closing those performance gaps.

The basic operating principles of the Strategic Planning Framework are:

1. Barton exists to create success for its students and the communities it serves.
2. To create stakeholder success, Barton must develop appropriate capacity and function at ever-higher levels of effectiveness.

The college enacts those operating principles through four standing Core Priorities (Values):

- Drive Student Success
- Cultivate Community Engagement
- Optimize Employee Experience
- Emphasize Institutional Effectiveness

Barton’s planning process provides a systematic means of analyzing the current state of each standing Core Priority against stated intended outcomes, planning a future state of the institution, and allocating resources to achieve that state.

**Key Performance Indicators**

Key Performance Indicators are our vital few performance measures, tracked at the institutional level. KPIs have the following characteristics:
Barton Strategic Plan

• KPIs align with the Core Priorities (Values)
  o Core Priorities convey a vision for Barton’s future that transcends the timeline of the strategic plan.
  o KPIs clarify and simplify the true intent of Core Priorities (Values) by defining what we will measure to determine success.
• KPIs establish significant but realistic outcomes and establish a timeframe for results.
  o They define the baseline of performance in a targeted area, quantify the intended improvement and state the target date.
  o They document the total effect of innovations created across individual projects, not the contribution of any single project.
• KPIs align with the goals of the Kansas Board of Regents Foresight 2020 Strategic Plan.
  o As part of the state’s system of higher education, Barton must help move the needle on the state’s education and economic development objectives.

Plans of Work
Barton’s strategic plan is implemented through a series of projects identified in work plans in each of the major divisions – Academics, Student Services, Information Services, Institutional Effectiveness, Administrative/Executive, Advancement, Human Resources and Finance. The college’s planning process provides a framework for planning that creates both a structured, strategic context for conducting the essential work of the institution and a flexible approach for organizing and executing that work down through the various units of the college. This approach provides management, faculty and staff the capacity to allocate time, effort and other resources to projects that rise to the top as priorities evolve and to implement big projects in more manageable phases.
