

ASSESSMENT ACADEMY

Annual Conference Mentor Consultation Questionnaire

Directions: Please read and respond to the questions below in as much detail that you feel necessary to fully answer the question. We will forward all information on to your mentor. If you choose to attach supporting documentation, please keep it brief. Your mentor will have access to your Collaboration Network updates.

1. What would you like to discuss with the Mentor?

Barton is refining our Program Review Process and wants to ensure that Program Assessment is included.

What are the necessary components of effective program assessment? Any examples would be appreciated.

2. What does the Mentor need to know to best advise you?

Barton is reviewing the Glendale Community College Program Review model:
<http://www.glendale.edu/modules/showdocument.aspx?documentid=29274>

Based on your experience, would you consider this to be a good model to follow?

We are enhancing our current model, are there features that you would recommend adding or removing from the Glendale model?

Again, in summary, our goal is to develop an effective program review process which allows for continuous improvement.

**Please email your responses to this question to Kim Davis (kdavis@hlcommission.org) before
Friday, April 8, 2016.**
