

Certified Safety and Health Official (CSHO)

The Certified Safety and Health Official certificate guides you through the growing maze of increasingly important safety regulations by helping you develop your staff's expertise in safety and health strategies. Participants in the Certified Safety and Health Official certificate program can complete an OSHA certificate in either construction or general industry.

How You Can Benefit

- Develop the skills and knowledge for developing and delivering health and safety programs.
- Develop your staff's expertise in health and safety strategies.
- Gain knowledge of changing regulations, guidance documents and regulatory interpretations.
- Earn appropriate credentials to teach and lead others.
- Demonstrate competency when dealing with regulatory agencies.

Participants in the Certified Safety and Health Official Professional Certificate can customize their interest by pursuing the Construction or General Industry CSHO certificate and through a selection of core required courses and electives. Courses taken can also be applied toward the advanced level Safety, Health, and Environmental Professional (SHEP) Certificate.

There is a certification cost with no time limit in which the courses must be completed.
