The Great Plains OSHA Education Center (GPOEC) is a consortium led by Metropolitan Community College in Kansas City, MO. Members of the GPOEC consortium include Barton Community College in Grandview Plaza, KS and Saint Louis University in St. Louis, MO. The GPOEC has established a network of Host Training Organizations to provide high-quality professional safety and health training throughout Missouri, Kansas, Iowa, and Nebraska. The courses offered at the GPOEC and the HTO locations will provide the knowledge to meet the demands of working in the safety profession.

Whether your business is construction, health care, manufacturing, food service, hospitality, or just about any other industry, creating and maintaining a safe, productive, compliant work environment is a critical business concern. We are here to help you achieve that goal. To stay competitive, employees must be trained more regularly than ever before.

Our technical courses on high hazard occupational safety and environmental compliance topics will keep you and your employees in the know on the latest environmental, health, and safety standards.

Great Plains OSHA Education Center courses are accepted for:

- American Board of Industrial Hygiene (ABIH)
- Certified Industrial Hygienist certificate maintenance (CM) points
- Certified Safety Professionals (CSP) may earn continuance of certification (COC) points; OHST's and CHST's may earn certification maintenance (CM) points
- Workforce Innovation and Opportunity Act (WIOA) for displaced workers (at Metropolitan Community College, Saint Louis University, and Kirkwood Community College)
- Continuing Education Units (CEU's) are available at all locations

**PLEASE NOTE:** *Some classes may be conducted via Virtual Instructor-Led Training (VILT) online and are indicated as such. Please contact the location you'd like to enroll at for more information.*

## OSHA 500 Trainer Course in OSHA Standards for the Construction Industry (\$835)

Four-day course

Prerequisites: *Students must have OSHA 510 in the past 7 years and have five years of safety related experience approved by the director.*

Completion of this course allows the student to become an OSHA Authorized trainer in the OSHA Outreach Training Program and will be approved to conduct both 10- and 30-hour Construction Industry Outreach classes. Students must prepare a presentation on an assigned OSHA Construction Industry Outreach Training Program topic individually or as part of a group and successfully pass a written exam at the end of the course.

IISC	5/13-5/16	NSC-NE	9/22-9/25	HCC	12/8-12/11
MCC	6/16-6/19				

## OSHA 2055 – Cranes in Construction (\$715)

### Three-day course

This course covers the requirements for operation of cranes in the construction industry using the OSHA construction Cranes and Derricks Standard as a guide. Course topics include hazards associated with crane assembly and disassembly, types of cranes, lifting concepts, rigging and wire rope, signaling, employee qualifications and training, and maintenance, repair, and inspection requirements.

Location	Date
CONTACT MCC TO SCHEDULE	

## OSHA 2225 – Respiratory Protection (\$825)

### Four-day course

This course covers the requirements for the establishment, maintenance, and monitoring of a respiratory protection program. Course topics include terminology, OSHA Respiratory Protection Standards, NIOSH certification, respiratory protection programs, and medical evaluation requirements.

Location	Date	Location	Date	Location	Date

## OSHA 2255 – Principles of Ergonomics (\$715)

### Three-day course

This course covers the use of ergonomic principles to recognize, evaluate, and control workplace conditions that cause or contribute to musculoskeletal and nerve disorders. Course topics include work physiology, anthropometry, musculoskeletal disorders, use of video display terminals, and risk factors such as vibration, temperature, material handling, repetition, and lifting and patient transfers in health care.

Location	Date	Location	Date	Location	Date

MCC	4/28-4/30	KCC	10/1-10/3		

## OSHA 2264 – Permit-Required Confined Space Entry (\$715)

### Three-day course

This course covers the safety and health hazards associated with permit-required confined space entry. Course topics include recognition of confined space hazards, identification of permit and non-permit required confined spaces, use of instrumentation to evaluate atmospheric hazards, ventilation techniques, development and implementation of a confined space program, proper signage, and training requirements. This course features workshops on permit entry classification, instrumentation, and program development.

Location	Date	Location	Date	Location	Date

BCC	4/7-4/9	HCC	8/5-8/7		

## OSHA 2455 – Safety and Health Management (\$715)

### Three-day course

This course covers safety and health management responsibilities. Participants will be able to implement a workplace Safety and Health Management Program (SHMP) according to OSHA's Recommended Practices for Safety and Health Programs and related guidance. The course covers the fundamentals, recordkeeping requirements, and how to assess a workplace SHMP.

Location	Date	Location	Date	Location	Date

## OSHA 3015 – Excavation, Trenching and Soil Mechanics (\$715)

### Three-day course

This course covers the OSHA Excavation Standard and safety and health aspects of excavation and trenching. Course topics include practical soil mechanics and its relationship to the stability of shored and unshored slopes and walls of excavations, introduction of various types of shoring (wood timbers and hydraulic), soil classification, and use of protective systems.

## OSHA 3085 Principles of Scaffolding: (\$715)

### Three-day course

This course covers the requirements for safe construction and use of scaffolding using OSHA's construction scaffold standards as a guide. Course topics include hazards associated with scaffold design, assembly, disassembly and use, types of scaffolds, determining scaffold capacity, employee qualifications and training and maintenance, repair and inspection requirements. Students will participate in workshops to reinforce concepts of safe scaffolding.

<i>Location</i>	<i>Date</i>	<i>Location</i>	<i>Date</i>
MCC.....	4/1-4/3	KCC.....	9/24-9/26

## OSHA 3095 – Electrical Standards (\$825)

### Four-day course

This course covers OSHA Electrical Standards and the hazards associated with electrical installations and equipment. Course topics include single- and three-phase systems, cord- and plug-connected and fixed equipment, grounding, ground fault circuit interrupters, and safety-related work practices. Emphasis is placed on electrical hazard recognition and OSHA Standards, policies, and procedures and applicable portions of the National Electrical Code (NEC). Students will participate in workshops on the safe and correct use of electrical testing equipment.

## OSHA 3115 – Fall Protection (\$715)

Three-day course

This course covers the OSHA Fall Protection Standard for construction and an overview of fall protection methods. Course topics include principles of fall protection, components and limitations of fall arrest systems, and OSHA Standards and policies regarding fall protection. Students will participate in workshops demonstrating the inspection and use of fall protection equipment, residential construction fall protection, training requirements, and developing a fall protection program.

## OSHA 5400 – Trainer Course in OSHA Standards for the Maritime Industry (\$825)

Four-day course

Prerequisites: *Students must successfully complete the OSHA #5410 Occupational Safety and Health Standards for the Maritime Industry and five (5) years maritime industry safety experience*

This course is designed for individuals interested in teaching the 10- and 30-hour Maritime Safety and Health Outreach Training Program to their employees and other interested groups. Special emphasis is placed on those topics required in the 10- and 30-hour Outreach Training Program as well as the most hazardous in the maritime industry using OSHA Maritime Standards as a guide. Students are briefed on effective instructional approaches and use of visual aids and handouts.

## **OSHA 5600 - Disaster Site Worker Trainer Course (\$825)**

*Four-day course*

This course prepares experienced Outreach Training Program trainers to present OSHA #7600 Disaster Site Worker Course, intended for second responders (those arriving hours or days after the event). Course topics include the National Response Framework, the Incident Command System, disaster work zone safety, respiratory protection, communication issues, applying elements of successful adult training programs, and knowledge, skills, and attitudes to awareness training about safety and health standards at natural and human-made disaster sites. Students are provided the opportunity to practice knowledge and skills through discussion, planned exercises, demonstrations, and presentations.

Prerequisites: OSHA 500 or 501, 3 years safety training, and one of the following: 40 Hr HAZWOPER (w/in 5 yrs), 8 Hr HAZWOPER Refresher (w/in 12 mths) or journey-level credentials in a building trade union. Transcripts, certificates or journey-level credentials required.

## **OSHA 6005 – Collateral Duty Course for Other Federal Agencies (\$825)**

*Four-day course*

This course covers the OSH Act, Executive Order 12196, and the OSHA General Industry Standards. This course is intended for federal agency collateral duty safety and health personnel. With use of the OSHA General Industry Standards, special emphasis is placed on areas in general industry which are most hazardous. Upon course completion students will have the ability to define general industry terms, identify hazards that occur in general industry, determine appropriate standards and regulations for federal agencies, locate OSHA General Industry Standards, policies, and procedures, and describe the use of the OSHA General Industry Standards and regulations to effectively assist agency safety and health officers with inspection and abatement efforts.

# Great Plains OSHA Education Center

## *EHSM/RMSM Courses*

- Call or visit web for pricing for EHSM/RMSM Courses •

Great Plains OSHA Education Center, along with our Host Training Organizations located throughout Missouri, Kansas, Iowa & Nebraska, have a proven record of results. We are dedicated to providing services that are designed to improve the quality of your organization's safety program to meet regulatory standards and protect workers.

Whether your business is construction, health care, food service, manufacturing, hospitality, or just about any other industry, creating and maintaining a safe work environment is a critical business concern. Our technical courses on occupational safety and environmental compliance topics will keep you and your employees in the know on the latest environmental health and safety standards.

Courses listed below are offered at our Campuses or one of our Host Training Organizations as an Open Enrollment options; please e-mail [safety.first@mcckc.edu](mailto:safety.first@mcckc.edu) for enrollment questions. Also, if you are interested in the 10 or 30 General or Construction Industry course, please call 816.604.5416 to schedule or to obtain contact information for an OSHA Authorized Trainer.

### **RMSM 6010 – Safety, Health and Environmental Risk Management Principles** (Call/Check web for Pricing)

*Three-day course*

This course provides students whose careers have focused on particular segments of risk management a more global picture of risk identification and control. The course will use breakout sessions to work on risk management problems, class discussion and instructor resources. The course will provide an overview of risk management and its application for companies, identifying the cost of risk, and prioritizing, managing, and controlling risk.

# Earn professional certifications and advance your career

Advance your career in the safety, health, environmental or risk management profession by earning a valuable credential. With an industry recognized certification, you can be prepared for a promotion, earn more money and show you are committed to your industry.

## Why become certified?

- Increase your awareness of changing Federal Regulations
- Enhance your advancement opportunities
- Take the knowledge gained and implement it into your organization
- Earn recognition and respect of your peers
- CEUs are available

## Career Certifications

### SSH: Specialist in Safety & Health

- This is a fundamental certificate program requiring just four OSHA courses
- You can choose from General Industry, Construction Industry or Healthcare Career Certification tracks

### CSHO: Certified Safety & Health Official

- Requires six core OSHA courses and two elective courses
- Nationally recognized professional safety and health certification
- You can choose from General Industry or Construction Industry Career Certification tracks
- Courses can be applied toward advanced level certifications

### SHEP: Safety, Health & Environmental Professional

- One (1) of the following:
  - CSHO-Construction Industry Certification
  - CHSO-General Industry Certification
  - AND -
- 2 Environmental Courses
- 1 Risk Management Course
- Course credits from SSH and CSHO apply toward SHEP course credit

(VILT)=Virtual Instructor-Led Training via Zoom    HYB – Hybrid In person and VILT

\*\*Course dates and prices subject to change\*\*

## SHF: Safety & Health Fundamentals

- Requires three core OSHA courses and 29 hours of elective courses
- You can choose from Construction Industry or General Industry Career Certification tracks

## Get started

There is an application fee that does not have to be paid to start, so get started today. Call the Great Plains OSHA Education Center in your area. Contact information can be found on page 2.

***Please Note:*** Great Plains OSHA Education Center will accept ONE Certificate of Completion from a different OTIEC toward Certification.
