Section I. INTRODUCTION

1. Scope

This manual lists repair parts, special tools, and support equipment required for the performance of

organizational, direct support and general support maintenance of commercial pistols. See figures 1 through 7.

Figure 1. Gold Cup National Match Colt caliber .38 automatic pistol, 5-inch barrel—left side view

Figure 2. Gold Cup National Match Colt caliber .45 automatic pistol, 5-inch barrel—left side view.

Figure 3. *Colt Caliber .32 Automatic Pistol, 3 3/4-inch barrel—right side view.*

Figure 4. Supermatic Tournament Hi-Standard, caliber .22 automatic pistol- 6 3/4-inch barrel—left side view.

Figure 5. Model 41, Smith and Wesson caliber .22 automatic pistol, 7-3/8-inch barrel—right side view.

Figure 6. Model 46, Smith and Wesson, caliber .22 automatic pistol, 7-inch barrel—right side view.

Figure 7. Model 52, Smith and Wesson, caliber .38 automatic pistol, 5-inch barrel—left side view.

2. General

This Repair Parts, and Special Tools List is divided into the following sections:

- a. *Basic Issue Items List.* Not applicable.
- b. *Items Troop Installed or Authorized List.* Not applicable.
- c. *Repair Parts—Section II.* A list of Repair Parts authorized at the organizational level for the performance of maintenance. It also includes parts which must be removed for replacement of the authorized parts. Parts lists are composed of functional groups in ascending numerical sequence, with the parts in each group listed in figure and item number sequence.
- d. *Special Tools List—Section III.* A list of special tools, test and support equipment authorized for the performance of maintenance at the organizational level.
- e. *Repair Parts List—Section IV.* A list of repair parts authorized at the direct support and general support levels for the performance of maintenance. The list also includes parts which must be removed for the replacement of the authorized parts. Parts lists are composed of functional groups in ascending numerical sequence, with parts in each group listed in figure and item number sequence.
- f. *Special Tools List—Section V.* A list of special tools, test and support equipment authorized for the performance of maintenance at the direct support and general support levels.
- g. *Federal Stock Number and Reference Number Index—Section VI.* A list, in ascending numerical sequence, of all Federal stock numbers appearing in the listings, followed by a list, in alphameric sequence, of all reference numbers appearing in the listings. Federal stock number and reference numbers are cross-referenced to each illustration figure and item number appearance.

3. Explanation of Columns

The following provides an explanation of columns found in the tabular listings.

a. *Source, Maintenance and Recoverability Codes (SMR).*

(1) Source Code. Indicates the source for the listed item. Source codes are:

<i>Code</i>	<i>Explanation</i>
P	Repair parts, special tools and test equipment supplied from the GSA/DSA, or Army supply system, and authorized for use at indicated maintenance categories.
P2	Repair parts, special tools and test equipment which are procured and stocked for insurance purposes because the combat or military essentially of the end item dictates that a minimum quantity be available in the supply system.

<i>Code</i>	<i>Explanation</i>
P9	Assigned to items which are NSA design controlled: unique repair parts. special tools. test. measuring, and diagnostic equipment which are stocked and supplied by the Army COMSEC Logistic System and which are not subject to the provisions of AR 380-41
P10	Assigned to items which are NSA design controlled: special tools, test, measuring and diagnostic equipment for COMSEC support. which are accountable under the provisions of AR 380-41, and which are stocked and supplied by the Army COMSEC Logistic System.
M	Repair parts, special tools and test equipment which are not procured or stocked as such in the supply system but are to be manufactured at indicated maintenance levels.
A	Assemblies which are not procured or stocked as such but are made up of two or more units Such component units carry individual stock numbers and descriptions, are procured and stocked separately, and can be assembled to form the required assembly at indicated maintenance categories
X	Parts and assemblies that are not procured or stocked because the failure rate is normally below that of the applicable end item or component The failure of such part or assembly should result in retirement of the end item from the supply system
X1	Repair Parts which are not procured or stocked. The requirement for such items will be filled by the next higher assembly or component.
X2	Repair parts, special tools, and test equipment which are not stocked and have no foreseen mortality. The indicated maintenance category requiring such repair parts will attempt to obtain the parts through cannibalization or salvage The item may be requisitioned, with exception data, from the end item manager for immediate use.
G	Major assemblies that are procured with PEMA funds for initial issue only as exchange assemblies at DS and GS level These assemblies will not be stocked above the DS and GS level or returned to depot supply level.

NOTE

Cannibalization or salvage may be used as a source of supply for any items source coded above except those coded X1 and aircraft support items as restricted by AR 700-42

(2) *Maintenance Code.* Indicates the lowest category of maintenance authorized to install the repair part and/or use the special tool or test equipment for each application. Capabilities of higher maintenance categories are considered equal or better. Maintenance codes are:

<i>Code</i>	<i>Explanation</i>
C	Crew/operator
O	Organizational maintenance
F	Direct support maintenance
H	General support maintenance
D	Depot maintenance.

(3) *Recoverability Code.* Indicates whether unserviceable items should be returned for recovery or salvage. Items not coded are nonrecoverable. Recoverability codes are:

Code	Explanation
R	Applied to repair parts. (assemblies and components special tools and test equipment which are considered economically repairable at direct and general support maintenance levels. When the item is no longer economically repairable. it is normally disposed of at the GS level. When supply considerations dictate, some of these repair parts may be listed for automatic return to supply for depot level repair as set forth in AR 710-50. When so listed. they will be replaced by supply on an exchange basis.
S	Repair Parts, Special Tools Test Equipment and assemblies which are economically repairable at DS and GS activities and which normally are furnished by supply on an exchange basis. When items are determined by a GSU to be uneconomically repairable, they will be evacuated to a depot for evaluation and analysis before final disposition.
T	Higher dollar value recoverable repair parts, special tools and test equipment which are subject to special handling and are issued on an exchange basis. Such items will be repaired or overhauled at depot maintenance activities only. No repair may be accomplished at a lower levels.
U	Repair Parts, Special Tools and Test Equipment specifically selected for salvage by reclamation units because of precious metal content, critical materials, high dollar value or reusable casings or castings.

b. *Federal Stock Number.* Indicates the Federal stock number assigned to the item and will be used for requisitioning purposes.

c. *Description.* Indicates the Federal item name and a minimum description required to identify the item. The last line indicates the reference number followed by the applicable Federal Supply Code for Manufacturer (FSCM) in parentheses. The FSCM is used as an element in item identification to designate manufacturer or distributor or Government agency, etc., and is identified in SB 708-42. Items that are included in kits and sets are listed below the name of the kit or set with quantity of each item in the kit or set indicated in front of the item name.

d. *Unit of Measure (U/M).* Indicates the standard or basic quantity by which the listed item is used in performing the actual maintenance function. This measure is expressed by a two-character alphabetical

abbreviation, e.g., ea, in, pr, etc., and is the basis used to indicate quantities and allowances, in subsequent columns. When the unit of measure differs from the unit of issue, the lowest unit of issue that will satisfy the required units of measure will be requisitioned.

e. *Quantity Incorporated in Unit.* Indicates the quantity of the item used in the breakout shown on the illustration figure, which is prepared for a functional group, subfunctional groups, or an assembly. A "V" appearing in this column in lieu of a quantity indicates that no specific quantity is applicable, e.g., shims, spacers, etc.

f. *15-Day Organizational Maintenance Allowances.*

(1) The allowance columns are divided into four sub-columns. Items authorized for use are identified with an asterisk in the allowance column opposite the first appearance of each item. Subsequent appearances have the letters "REF" in the allowance columns.

(2) Subsequent changes to allowance lists will be accomplished in accordance with AR 735-35. In addition the major commands will be authorized to approve reductions in stockage allowances (range and quantity). If additional items are considered necessary, recommendations should be forwarded to Commanding General, U.S. Army Weapons Command, ATTN: AMSWE-MAP, Rock Island, Illinois 61201, for exception or revision to the allowance list.

g. *30-Day DS/GS Maintenance Allowances.*

NOTE

Allowances in GS Column are for GS Maintenance only.

The allowance columns are divided into three subcolumns. Items authorized for use are identified with an asterisk in the allowance column opposite the first appearance of each item. Subsequent appearances of the same item will have the letters "REF" in the applicable allowance columns.

h. *1-Year Allowances per 100 Equipments/Contingency Planning Purposes.* This column indicates opposite the first appearance of each item the authorization for distribution and contingency planning purposes. The range of items indicates the authorization of all items required to provide for adequate support of 100 equipments for one year. Subsequent appearances of the same item will have the letters "REF" in this column.

i. *Depot Maintenance Allowance per 100 Equipments.* Not applicable.

j. *Illustration.* This column is divided as follows.

(1) *Figure Number.* Indicates the figure number of the illustration in which the item is shown.

(2) *Item Number.* Indicates the callout number used to reference the item on the illustration.

4. Special Information

a. Usable on codes are included in Column 3. Identifications of the usable on codes in this publication are:

<i>Code</i>	<i>Used on</i>
A	Pistol, Caliber .38, Automatic: Colt, Gold Cup National Match (1005-859-0458)
B	Pistol, Caliber .45, Automatic: Colt, Gold Cup National Match (1005-591-80461)
C	Pistol, Caliber .38, Automatic: Colt, Gold Cup National Match (1005-859-0458) Pistol, Caliber .45, Automatic: Colt, Gold Cup National Match (1005-591-80461)
D	Pistol, Caliber .32, Automatic: Colt, Model M W/E 1005-317-2469)
E	Pistol, Caliber .22, Automatic: Hi-Standard, Supermatic Tournament 11005-976-9231)
F	Pistol, Caliber .22, Automatic: Smith and Wesson, Model 41 (1005-532-3025)
G	Pistol, Caliber .22, Automatic: Smith and Wesson, Model 46 (1005-831-1267)
H	Pistol, Caliber .22, Automatic: Smith and Wesson, Model 41 (1005-532-3025) Pistol, Caliber .22, Automatic: Smith and Wesson, Model 46 (1005-831-1267)
I	Pistol, Caliber .38, Automatic: Smith and Wesson, Model 52 (1005-971-5039)
J	Pistol, Caliber .22, Automatic: Smith and Wesson, Model 41 (1005-532-3025) Pistol, Caliber .22, Automatic: Smith and Wesson, Model 46 (1005-831-1267) Pistol, Caliber .38, Automatic: Smith and Wesson, Model 52 (1005-971-5039)

b. Action change codes indicated in the left-hand margin of the listing page denote the following:

- N—Indicates an added item.
- C—Indicates a change in data.
- R—Indicates a change in FSN only.

c. The following maintenance supplies and materials are recommended for these pistols. Pertinent authorized documents are the proper requisitioning authority for these maintenance expendable supplies and materials.

<i>FSN</i>	<i>Nomenclature</i>
1005-288-3565	SWAB, SMALL ARMS CLEANING: 2 1/2 SQ (1000 PER PG)
1005-912-4248	SWAB, SMALL ARMS CLEANING: 1 1/4 SQ (1000 PER PG)

<i>FSN</i>	<i>Nomenclature</i>
6850-224-6657	CLEANING COMPOUND, RIFLE BORE: (RBC) (8 OZ CAN)
6850-281-1985	DRY CLEANING, SOLVENT: (SD) (1 GAL CAN)
9150-73-2389	LUBRICATING OIL, GENERAL PURPOSE: (PL SPECIAL) (4 OZ CAN)

5. How to Locate Repair Parts

a. When Federal stock number or reference number is unknown:

(1) *First.* Using the table of contents determine the functional group within which the repair part belongs. This is necessary since illustrations are prepared for functional groups and listings are divided into the same groups.

(2) *Second.* Find the illustration covering the functional group to which the repair part belongs.

(3) *Third.* Identify the repair part on the illustration and note the illustration figure and item number of the repair part.

(4) *Fourth.* Using the Repair Parts Listings. Find the functional group to which the repair part belongs and locate the illustration figure and item number noted on the illustration.

b. When Federal stock number or reference number is known:

(1) *First.* Using the Index of Federal Stock Numbers and Reference Numbers find the pertinent Federal stock number or reference number. This index is in ascending FSN sequence followed by a list of reference numbers in ascending alphabetic sequence, cross-referenced to the illustration figure number and item number.

(2) *Second.* Using the Repair Part Listing, find the functional group of the repair part and the illustration figure number and item number referenced in the Index of Federal Stock Numbers and Reference Numbers.

6. Abbreviations

Not applicable.

7. Recommendations for Maintenance Publications Improvements

You can improve this manual by calling attention to errors and by recommending improvements, using DA Form 2028 (Recommended Changes to Publications) or by a letter, and mailing directly to Commanding General, U.S. Army Weapons Command, ATTN: AMSWE-MAP, Rock Island, Illinois 61201.
