SS — A significant or “super” strength, something the institution does so well that it should be the model of *good practice, efficient operation, or effectiveness* for others.

S — An institutional strength — a process that is well designed and operating effectively, a performance result that everyone is proud of, an improvement system that consistently find and implements effective improvements.

? — A system or performance result that people in the institution do not agree represents either a strength or an opportunity for improvement.

O — An opportunity for improvement, an area that everyone agrees can and ought to be done better.

OO — An outstanding improvement opportunity, one that urgently needs attention, either because it represents a opportunity to diminish a significant risk to future effective operations, or because it represents an opportunity to innovate in a way that would significantly strengthen the institution in the future.
