Mindset: "OER is a tool; it is not the goal.

Open Educational Resources (OER) are **teaching, learning, and research resources that reside in the creative commons and/or public domain** or have been released under an intellectual property license that permits their use and repurposing by others. OER may include full courses, course materials, modules, textbooks, streaming videos, tests...**used to support access to knowledge.**

"OER Defined" by Larry Kramer, William Flora Helwett Foundation / A derivative from the original work

5Rs For OER

- Retain
- Reuse
- Remix
- Revise
- Redistribute

Pubic Domain & Royalty Free

NOTE: We can site the above resources as follows due to the fact they are in the public domain. These are a good option as they also provide alt text.

- Site image source in syllabus if all images are from the 1-3 sources
- Just site the url or name of site under image (listing artist is optional)
