# The Assessment Academy Experience

---

- **Feedback (guidance and support).** Ability to run thoughts and ideas past mentors and other institutions for feedback.
- **Peer review.** Very valuable to be able to have ideas for how to tackle and issue/GAP in assessment peer reviewed and a go-ahead from assigned mentor (one-on-one mentor consultations at the HLC Conference also facilitate this concept).
- **Educational.** Given access to the Collaboration Network, a vast repository of Assessment work done at other institutions as well as their respective feedback from the Academy mentors (seeing what HLC approved and what they didn't), and the opportunity to read through them all, has been an invaluable resource for ideas, trials and failures (and insights as to why some things worked and others didn't), and overall best practices from other peer institutions.
- **A unified focus.** The fact that participation in the Assessment Academy was required as Barton's Quality Initiative for Accreditation kept Barton's feet to the fire so to speak. Not that progress wouldn't have been made otherwise, but there is something to the fact that a progress report due every six months keeps things moving forward.
