

Hi All,

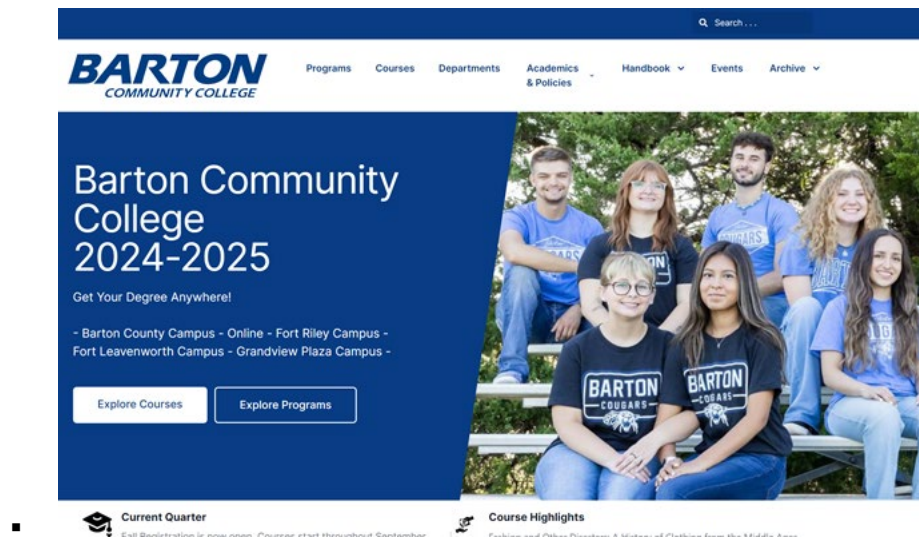

Thanks again for the productive discussion on Coursedog today. It was a pleasure meeting all of you, and I look forward to our continued conversations. I decided to send this follow-up to all of you (instead of picking on Elaine). This way, all of you have my contact information should you have one-off questions moving forward.

Key Points Discussed Today

- Coursedog's approach to streamlining and integrating curriculum management, academic scheduling, and assessment workflows
- Our deep integration capabilities with Banner, including real-time data exchange and automation
- I gathered that there's interest in exploring Coursedog further in the following areas:

- [Curriculum & Catalog Management](#)

- We created a "mock" catalog for Barton CC that we can review during future conversations. Here's a sneak peek:

The screenshot shows the Barton Community College website's search results page. The header features the college's logo and navigation links. A search bar is located at the top right. Below the navigation, there's a breadcrumb trail 'Home / Courses'. The left sidebar contains filters for 'Courses', 'Subject code', 'Career', 'Designation', 'General Education Course', 'Terms Offered', and 'Department(s)'. The main content area shows 'Results (15)' with a 'Sort By' dropdown. The first result is 'Accounting' (ACCT014A), followed by 'Basic Anatomy & Physiology II' (BIO122), 'Basic Reading and Writing III' (ENGL100), and 'Composition II' (ENGL101).

- [Academic Scheduling](#)
- [Assessment Management](#)
- [Course Demand Projections \(Scheduling Analytics\)](#)

Additional Resources

- I have attached a summary that outlines several key concepts we covered during our call and how our solutions align with some of the KPIs identified in your strategic plan.
- Here is the link to today's call should you want to share it with anyone who couldn't attend: [Coursedog<>Barton Community College Intro](#)
- IT Resources:
 - *Banner Integration*

Suggested Next Steps

If all of you decide that it makes sense for conversations to continue, we can schedule some time to dive deeper into how Coursedog can address your needs. I recommend separate meetings to review the following (in any order):

1. Curriculum & Catalog Management

- Showcase our workflow automation and integration capabilities
- Demonstrate how to easily create and update program and course information and manage configurable forms and workflows as part of the curriculum review process.

2. Academic Scheduling & Analytics

- We can walk through our intuitive academic scheduling interface, showcasing how Coursedog identifies the best-fit time, room, and instructor.
- Highlight our Scheduling Analytics features for data-driven decision-making

3. Assessment Management Overview

- Deep dive into Barton's current Assessment Management processes.
- Overview of how Coursedog's Assessment tool could digitize the process and consolidate information for assessment reviews in one location.

Please let me know if you would like to schedule a time to review any/all of these solutions and who should be included in each, and we'll go from there.

I look forward to continuing our conversation and exploring how Coursedog can support you all in the future!

Best Regards,

~Lindsey
