The Business Management and Leadership program at Barton did an awesome job preparing me for the work field. I decided on the Business program because I thought it would be a great foundation for any career I chose in the future.

*My advisor made it super easy to decide when and how I wanted to take my classes. With all the different options such as the traditional classes during the day, evening classes, **online** classes, and hybrid classes it was very easy to get all the required classes for this degree accomplished. The classes I took helped me to build many leadership and business atmosphere skills that would be very useful in any business setting. The skills I took from Barton have truly been a benefit to my career. When I graduated, I had a great full time office job at a well known company in the local area. This program is a great growing experience for anyone who plans on having a Business career in the future. Thanks Barton!! - Felicia Sanders Davis*
