

Pharmacy Technician Online Certificate

Looking for an online program to prepare you for a career in pharmacy?

Interested in a rewarding career in the healthcare field? Then Barton's online Pharmacy Technician program may be the perfect fit for you!! Pharmacy technicians work in a variety of settings including hospitals, retail pharmacies, and nursing homes and play a vital and growing role in the pharmacy workplace.

Barton Community College offers an online 29 credit hour pharmacy technician certificate that may be completed in as little as two semesters. This certificate prepares the student for the Pharmacy Technician Certification Exam (PTCE) and the Exam for the Certification of Pharmacy Technicians (ExCPT) national exams.

This certificate program provides a broad knowledge of the pharmacy including courses in pharmacy calculations, pharmacology, and pharmacy operations. The pharmacy curriculum, paired with courses in customer service, medical terminology, and business English readies the student for the workplace.

Barton's Pharmacy Technician program offers students the opportunity for an on-site clinical experience internship to compliment their online coursework. This program is currently open for enrollment to students.

For further program information, please visit Barton's Pharmacy Technician Program website at:
