

METEOROLOGIST

KAKE, the ABC affiliate in Wichita, Kansas, has a full-time opening for a motivated and skilled on-camera Meteorologist. This position will analyze complex weather data, develop forecasts, and contribute to our mission of providing timely and accurate weather information to our viewers.

Responsibilities:

- Primary duties will be a mix of on-air, weather producing, digital and special projects.
- Must be able to forecast and create on-air and digital weather content.
- Will be required to present live from in-studio and on-location.
- Will be involved on-air during continuous severe weather coverage.
- Ability to value add and properly communicate threats live on-air, rather than relying solely on NWS.
- Keep abreast of new information and technology that would enhance the presentation of weather information, graphics, and animation.

Qualifications:

- Must have radar interpretation skills.
- Must have strong communication skills and be proficient in social media and digital communications.
- Must have significant hands-on experience with weather computers.
- Bachelor's degree in meteorology, atmospheric science, or a related field is required.
- Certified Broadcast Meteorologist credential from the AMS is preferred, or must have the qualifications to obtain certification.
- Previous experience as a Meteorologist is preferred.
- Must be able to work any shift as assigned.

To apply, please send resume and work reel to:
