

SarTec Corporation
PO 665
Anoka, Minnesota 55303
Phone 763-421-1072

Pay: \$45,000.00 - \$55,000.00 per year

Job description: The main duties of this position are equipment product delivery, product production, service, and warehouse work. You will perform repair and service on SarTec's grain conditioning and related equipment as directed by your supervisor.

- Deliver products to all customers in your territory and submit deliveries.
- Monitor electronic product levels to make sure that no customer ever runs out of product.
- Perform routine maintenance and service on the delivery truck.
- Monitor product inventory and co-ordinate product shipments with the main office.
- You will perform service calls as needed for all customers located in your territory and elsewhere as business may require.
- The current target for servicing each customer's equipment located in your area is a minimum of once a month. This may be subject to change as needed and more trips may be required.
- You will be expected to fill out a detailed electronic service report for each feedlot visit and send it to SarTec.
- Mixing and production of SarTec products.
- Warehouse duties include toting products, storage, documentation, and cleaning.
- Assist with any building and grounds maintenance.
- A CDL license is not required but would be beneficial.
- Other duties as directed by your supervisor.
- Occasional climbing up on feed mills, which can vary in height*

Job Type: Full-time

Benefits:

- Dental insurance
- Health insurance and a Health Savings Account
- 401k eligible after 1-year of service
- Paid time off

License/Certification:

- Driver's License (Required)
- A CDL license is not required but would be beneficial.
