- Email: library@bartonccc.edu
- Password: 50+years

Provides thousands of peer-reviewed video research articles and video resources for scientific research and education in several disciplines including the physical and life sciences, medicine, and engineering. Articles include detailed text protocols and video demonstration of experiments. Coverage: Varies by title.

JSTOR

- Direct access link

Provides access to textual and image content in 75 disciplines of the arts, humanities, and social sciences. The Library's subscription allows patrons to search full-text articles in 1,316 scholarly journals, book chapters from 8,878 open access books, the contents of 41,605 open research reports, and numerous images. Full-text articles and book chapters available in PDF. Coverage: Varies by title.

Micromedex

- Username: bccclibrary
- Password: researchcougars

Provides access to databases offering comprehensive drug, disease, and toxicology oriented information, including drug identification, packaging information, interaction and contraindication information, drug prices, international formulations, occupational safety sheets, and safety in pregnancy. Coverage: Varies by title.

NewsBank

- Direct access link

Provides access to over 12,000 local, national, and international news sources, including newspapers, newswires, newsletters, news magazines, blogs, journals, transcripts from news programs, video, and web-only sources. Languages include English, French, Gaelic, German, Italian, Portuguese, and Spanish. Full text available in HTML and PDF. Coverage: 1900-present.

[Nursing and Mental Health in Video](#)

- Direct access link

Features over 240 videos of the most common mental health disorders encountered by nurses in emergency room, primary care, psychiatric, and other settings. The collection assists students in understanding, assessing, and managing mental health issues that often present themselves alongside physical conditions. Scenarios include over 20 patient cases that demonstrate skills such as limit setting, diffusing of anger, patient negotiations, phrasing of questions, and use of assessments. Access provided by the State Library of Kansas. Coverage: 2018.

[Nursing Education in Video](#)

- Direct access link

Provides access to Medcom-Trainex's complete collection of 300+ full-length demonstration and training videos covering numerous skill sets, issues and other aspects of professional practice, administration, and management. Topics include assessment, administration, basic clinical skills, communication, infection control, and patient care. Access is provided by the State Library of Kansas. Updates vary. Coverage: 1987-2021.

ProQuest Nursing & Allied Health

- Username: bccclibrary
- Password: Research@2020

Provides a broad range of peer-reviewed scholarly journal and magazine articles, eBooks, clinical training videos, reference materials, dissertations, and evidence-based resources for nursing research, clinical skills development, and curriculum support. Topics include allied health, alternative and complementary medicine, geriatrics, nursing, physiology and anatomy, and public health. Coverage: 1870s to the present.

Salem Press / Grey House Publishing

- Remote Password: BCCCougars

Provides the complete content of printed reference sets from Salem Press and Grey House Publishing on a variety of topics such as careers and business, health, history, literature, and science. Core collections include *Critical Insights*, *Principles of Business*, *Principles of Science*, and *The Reference Shelf*. Full text readable online or saved to a personal folder. Coverage: 2013-present.

Statista

- Direct access link

Provides access to quantitative market and consumer data in 425 economic sectors in 50 countries such as market research reports, trade publications, scientific journals, and government databases. Results from over 18,000 sources are presented in a range of infographic tools for analysis and visualization. Among the database's 80,000 topics are business, consumer markets, finance, the global digital economy, industrial sectors, macroeconomic trends, media, politics, and public opinion. Available metadata is shared for each statistic including but not limited to source, release date, number of respondents, and other pertinent details to enable verification of statistical information. Coverage: Generally, ten years for sectoral data and up to 30 years for macroeconomic time series; varies by sector and country.
