POLICY TYPE: ENDS

POLICY TITLE: MISSION

Mission

Barton County Community College, as a learning college and as a learning organization, advances learning that improves not only the economic, social, and personal lives of individuals, but also their contributions to society.

Response: The Board of Trustees, the College community, and the community as a whole have reason to take pride in their community college. While the fulfillment of its mission is an evolving and on-going process which is never really complete, there is ample evidence that the College's existence does support the economic and social life of individuals and their contributions to society. Evidence of this is provided through the monitoring and ENDS' reports. Additionally, as reflection is given to the numerous successes of the past year, it is clear that the College is attempting to fulfill its mission, one student and one contact at a time.

In a small way, the economic impact statement from past years provides some evidence of the taxpayers' "return on investment." Additionally, data continues to indicate that Barton's property tax cost per FTE when contrasted with other institution's same data illustrates considerable efficiency. The numerous musical and drama performances and the athletic events have all added to the "life" and social well being of the community. These elements say nothing of the contributions that the education provided to the thousands of students touched by the institution have made.

Successful Completion of Board Established Goals

Response: A number of the established goals have been addressed during the course of the year. The College Report Card will be published in October and it will indicate some of the accomplishments directed toward the Goals. I also trust that the various staff reports provided throughout the year give an indication of how the institution is addressing this ENDS item.

Note: "On-Campus and Outreach" numbers includes students enrolled in online courses (BartOnline, EduKan, and MLT-BCCC Web/eCompanion); also, Ft. Riley numbers include Junction City students.

Response: The above snapshot of Fall 2003 headcounts reveals Barton's relatively diverse student population; however, much of the ethnic diversity results from enrollments at the Fort Riley/Junction City campus. Locally in the Service Area, there continues to be a slight increase in Hispanic student enrollments during Fall terms (2.7% in Fall 2000, 3.0% in Fall 2001, 3.5% in Fall 2002, and 3.6% in Fall 2003). The College continues its efforts through the Hispanic Advisory Board to find ways to serve the growing Hispanic population in the area, including efforts to increase financial aid through "La Oportunidad Fund."

* # Enrolled at Barton includes those HS graduates who enrolled during the academic year following their HS graduation.

Response: Market penetration reflects representation of traditional age students from the surrounding area. The College's ability to attract recent high school graduates has remained relatively consistent throughout the four-year period; however, there appears to have been some improvement in recruiting traditional-aged students from the Service Area high schools in 2003 as compared to the earlier year(s). Efforts to improve penetration include increased emphasis on special events for recruits and summer enrollment days. Also, in contrast to earlier years, improved budget planning allowed for the more timely award of scholarships in 2003.

Provide information to the community, Board, or College constituencies, which is untimely, inaccurate, or misleading.

Response: To the best of my ability, I have tried to not only provide timely and accurate information, but have attempted to ensure that the communication is ethical and forthright. Managing the flow of information in a large organization is challenging, but I feel that progress continues to be made. I also recognize that everyone looks at what is communicated, and when it is communicated, a bit differently. My efforts have been to try to anticipate what the majority would need to know and should know at the appropriate time. I have done this while trying to balance personal communication with individuals.

General Executive Constraint #5

Permit conflict of interest in awarding purchases or other contracts or hiring of employees.

Response: To my knowledge, no conflict of interest regarding purchases, contracts, or hiring has occurred. I believe institutionally, we continue to demonstrate that our purchasing processes provide fairness, preference to local business whenever possible, and encourage competition so the taxpayers receive the most for their money. Additionally, we continue to use personnel screening and selection processes that encourage qualified and quality applicants and fairness in appointments. As it relates to this last item, we maintain processes that allow us to expeditiously make appointments when it is thought to be in the best interest of the College.

General Executive Constraint #8

Fail to take prompt and appropriate action when the President becomes aware of any violation of any laws, rules or regulations or of any breach of Board policies.

Response: No violations of laws, rules, regulations or Board policies have occurred which have not been brought promptly to the Board's attention. With legal assistance, we have tried to be proactive in making sure that an inadvertent violation does not occur.

General Executive Constraint #9

Allow assets to be unprotected, inadequately maintained, or unnecessarily risked.

Response: To my knowledge, all assets are protected and with no or minimal risk. The only possible exception, of which the Board is already aware, is the institution’s fiscal position. In meeting our projected budget’s expenditure plan; we will have difficult decisions to make. We are a point that to maintain our comprehensive nature and services we will have to regularly seek local and consistent tax support or eliminate services and programs.

We will monitor the reactions to our current budget situation and work with the Board again during the year to identify areas where eliminations can most easily be made as compared with the essentials of our mission.

General Executive Constraint #10

Inform fewer than two administrators of President and Board issues and processes.

Response: Issues of a critical nature have been shared with at least two administrators. I use the President’s Staff meetings to inform and receive issues of an operational nature. PIC deals with issues and functions of a strategic nature.

POLICY TYPE: EXECUTIVE LIMITATIONS

POLICY TITLE: FINANCIAL CONDITIONS

The President shall administer the Board approved budget without material deviation from Board priorities in ENDS policies, and shall protect the College from financial risk.

Accordingly, the President may not:

Financial Condition #3

Make any purchase: (a) without prudent protection against conflict of interest; (b) over \$10,000 without Board approval; (c) over \$10,000 without seeking at least three competitive quotes or sealed bids, submitted on prepared specifications. No purchase shall be made except on the basis of quality, cost, and service. Consideration shall be given to local vendors who can provide like quality products and services and who meet bid specifications.

Response: Following review of this constraint with the Dean of Business Services, I feel confident that the College is in compliance with the policy. We remain sensitive and judicious in balancing the need to support the local economy with making wise purchases in stretching limited tax dollars.

Financial Condition #6

Fail to maintain adequate reserves which allow the College cash reserve to drop below 8% of its annual budget, working toward a goal of 16%.

Response: The Board has been apprised that additional progress toward this goal was made over the course of the past year. The cash reserve is much nearer its goal than it was in the mid to late 1990s. As you are aware the reserve, though we had projected the need to use some of it this year has actually grown because the state did not make some of the cuts we had anticipated. This is the fourth or fifth year in a row we have seen growth in the reserves, this in spite of some extreme fiscal difficulties. It is my impression that the reserves have grown on the sacrifices of our employees. In anticipation of our reduced enrollments at Fort Riley and the need to provide compensation increases for employees the Board can expect that some reserves will be used this coming year as part of the budget plan.

Financial Condition #7

Knowingly jeopardize aid from state, federal, or other funding sources before, during, or after the aided activity.

Response: To my knowledge, I am in compliance with this limitation. In fact, all of us associated with the College have been proactive in trying to protect the aid we receive and this has occurred throughout the state's higher education reorganization and funding process.

Financial Condition #8

Fail to provide a monthly report of the College's current financial condition.

Response: Each month, as part of the Board's agenda, "Claims" and "Financial Reports" are presented for the Board's review and action. The reports accurately reflect the fiscal condition of the institution. Further, information regarding the Foundation's fiscal condition is provided to the Trustees from the Foundation Office each month. The clarifying questions asked by the Board are appreciated, as they help us to more fully discharge our accountability to the public.

PUBLIC AND EMPLOYEE COMMENT

No requests for public and/or employee comment were received.

ACTION ITEMS

Election of Board Officers – Chairman Mermis advised that the Board would need to elect officers for 2004-2005.

Trustee Soeken moved that the Board appoint the following Trustees as Board officers for 2004-2005: Stephan J. Mermis, Chair; Dan Soeken, Vice Chair; Mike Johnson, Secretary and KACCT Delegate and Ron Vratil, Treasurer. The motion was seconded by Trustee Sessler. Following discussion, the motion carried.

Revised 2004-2005 Board Meeting Schedule – At the Board Advance in May, the Trustees expressed their desire to schedule two Board Advances annually. The Board was presented with a revised 2004-2005 Board meeting schedule, which included these Board Advances, now scheduled for September 1, 2004 and March 2, 2005.

Trustee Webster moved that the Board approve the revised 2004-2005 Board meeting schedule as presented. The motion was seconded by Trustee Johnson. Following discussion, the motion carried.

Feasibility Study – The Board was presented with detailed information relative to pursuit of a feasibility study, which would greatly benefit both the College and the Foundation. Dr. Law shared that the study would be used as a means for the Trustees to link with their stakeholders and educate them about the needs and activities of the College while learning from, and hearing very specifically from, those stakeholders regarding the College and its services. The Foundation would utilize the feasibility study as a learning tool for gaining experience and confidence in conducting a major fundraising campaign. The Board reviewed two quotes to conduct the feasibility study.

Trustee Sessler moved that the Board authorize the College administration to retain the services of The Clemens Group, L.C. to conduct a feasibility study for the amount of \$15,650 plus expenses, as presented. The motion was seconded by Trustee O'Connor. Following discussion, the motion carried.

2004-2005 Operating Budget – The Board was presented with the proposed 2004-2005 operating budget as recommended by the Administration. The request for tax dollars was \$5, 247,000 (an increase of \$233,680 over the previous year) and the recommended requested mil levy was 30.54 (an increase of .68 mils from the 2003-2004 approved mil levy of 29.90.) It was further noted that this mil levy increase would remain .34 below the 30.88 mil levy in 2001 and 4.25 below the mil levy in 1999. Dr Law shared with the Trustees concerns that the College had lost several long-term, highly valued employees in the past two years, due to the College's

increasing inability to provide competitive salaries as well as the challenges in hiring new, qualified employees to fill vacancies which are vital to the College's mission.

Trustee Webster moved that the 2004-2005 mil levy be revised from the proposed 30.54 mils to 30.86 mils in order to provide additional money for employee salary adjustments and that the operating budget and publication of the 2004-2005 budget be revised and approved accordingly. He further requested that the additional .32 mils be set aside as additional compensation for full-time faculty salary increases, above the proposed salary increases already included in the operating budget. The motion was seconded by Trustee O'Connor. Following discussion, the motion carried.

Publication of 2004-2005 Budget – The Budget Hearing was scheduled for Tuesday, August 10, 2004 at 4:00 p.m. in room U-219 of the Student Union (upper level.) The Trustees were presented with the proposed budget publication page, to be published in accordance with K.S.A. 79-2929, in the Great Bend Tribune, no less than ten days prior to the budget hearing.

Trustee Johnson moved that the Board amend the budget publication page, increasing the mil levy from 30.54 to 30.86 and approve publication of the amended budget in the Great Bend Tribune. The motion was seconded by Trustee Sessler. Following discussion, the motion carried.

Athletic Insurance – The Board was presented with the following quotes for athletic insurance for 2004-2005:

	Annual Cost
Life Insurance Company of North America	\$42,150
Guarantee Trust Life	\$44,280
Mutual of Omaha	Not competitive

The above quotes included a \$2,000 deductible, expanded Medical and HMO/PPO benefits, and AD & D of \$5,000. The College also received a quote for catastrophic insurance from Mutual of Omaha for \$2,689 (\$5,000,000 lifetime maximum.)

Trustee Webster moved that the Board approve the low quote from Life Insurance Company of North America in the amount of \$42,150 for athletic insurance and the catastrophic quote from Mutual of Omaha in the amount of \$2,689 for the 2004-2005 academic year. The motion was seconded by Trustee Sessler. Following discussion, the motion carried.

2004 – 2005 KACCT Dues – The Board was presented with the 2004-2005 Kansas Association of Community College Trustees (KACCT) dues in the amount of \$15,206.11 based on 44,174 credit hours @ .265 per credit hour.

Trustee Johnson moved that the Board approve the 2004-2005 KACCT dues as presented. The motion was seconded by Trustee Webster. Following discussion, the motion carried.
