

Barton Community College Commercial Driver's License Course

Through the generosity from the "Wells Agriculture Enhancement Fund" Barton was able to purchase a semi-truck and trailer to start teaching the three credit hour commercial driver's license course. Mark Bogner and Dr. Vic Martin located a truck and trailer at "The Wray's Equipment Company in Sawyer, KS. Listed below are the specifics:

- 2004 Freightliner Columbia Day cab truck with approximately 500,000 miles--- \$24,500
- 2005 Manac 48' X 102' aluminum flat bed, spread axle, air ride trailer--- \$19,500

Mark Dean has secured insurance and will handle the tagging process once he has the original paperwork. Mark Bogner and Vic Martin are planning on picking up the truck and trailer on February 20, 2015, at that time we will turn the title over to Mark Dean to finish the tagging process.

There is currently an advertisement running for a CDL associate faculty member(s). We are planning on hiring at least three instructors in order to run a daytime, evening and weekend class. Class time is tentatively structured to have six to nine hours of classroom time teaching students the basics in safety, regulations and pre-trip inspections. At the conclusion of the classroom portion of the course, students will take the written test for their Kansas CDL learner's permit. Once they have obtained their learner's permit, students will make arrangements with the instructor to drive the truck and trailer. We anticipate it taking approximately 30-35 hours of driving instruction for a student to have sufficient knowledge to pass the required skills test. We will make arrangement to take students to either Hays or Salina to take the skills test.

Class size will be limited to no more than twelve students, with an estimated revenue of \$3,492 in tuition and fees each time we run the class. Currently there are six students that need their commercial driver's license to earn their certificates in either Beef Cattle Production or Crop Protection. I have also been contacted by a local construction company asking for a customized class for ten to twelve of his employees. We are planning to run the class at least four times approximately every eight to twelve weeks as long as there is enough interest.

BARTON COMMUNITY COLLEGE
COURSE SYLLABUS
FALL 2009

I. GENERAL COURSE INFORMATION

Course Number: AGRI 1212

Course Title: Commercial Drivers License

Credit Hours: 3

Prerequisite: None

Division and Discipline: Workforce Training and Community Education/Crop Protection

Course Description: This course provides necessary information to successfully acquire a Commercial Drivers License.
