

OSHA Training Institute Education Center & Occupational Safety & Health Program Update to the Board of Trustees

Organizational Structure

Degrees/Certs/SAPPs

Occupational Safety and Health Program (For Credit)

- 64ch AAS Degree (Occupational Safety and Health)
- 18ch Certificate (Occupational Safety and Health)
- Two 6.5ch SAPPs (Specialist in Safety & Health Construction Industry or Specialist in Safety & Health General Industry)

Terms: 202201, 202103, 202102, 202101, 202003, 202002, 202001	
<u>Degree</u>	<u>Count</u>
SAPP	127
AAS	18
CERT1	11
Total	156

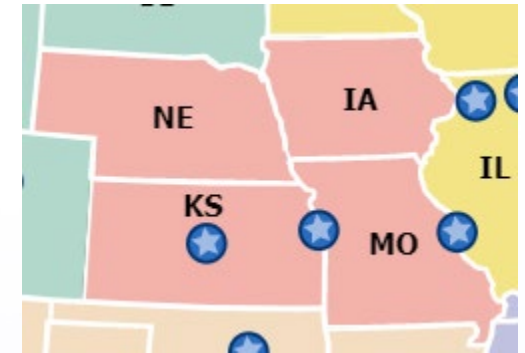

<u>Term</u>	<u>Enrollments</u>
Spring 2020	241
Summer 2020	176
Fall 2020	348
Total	765
Spring 2021	482
Summer 2021	128
Fall 2021	313
Total	923

Barton is a Consortium member of the Great Plains OSHA Training Institute Education Center (GPOEC)(Lead: Metropolitan Community College, Kansas City MO; St. Louis University, St. Louis, MO)

- GPOEC is under the guidance of a non-financial cooperative agreement with OSHA DOL to operate as an authorized OSHA Training Institute Education Center from 10/1/2017 to 9/30/2022
- The Consortium services Business & Industry clients in Region VII (Kansas, Nebraska, Iowa, and Missouri)
- GPOEC offers 40+ OSHA Occupational Safety & Health related classes
- Barton's OTIEC is the only OTIEC in Kansas
 - Hutchinson Community College serves as a Barton Host Site for OTIEC classes

1. OSHA #511 (OSHA 1914) Occupational Safety & Health Standards for General Industry
2. OSHA #521 (OSHA 1007) OSHA Guide to Industrial Hygiene
3. OSHA #2015 (OSHA 1012) Hazardous Materials
4. OSHA #510 (OSHA 1926) Occupational Safety and Health Standards for the Construction Industry
5. OSHA #3095 (OSHA 1010) Electrical Standards
6. OSHA #3115 (OSHA 1009) Fall Protection

Specialist in Safety and Health

Choose from General Industry, Construction, or Healthcare Industry.

Complete this certification with just four (4) courses (1 required and 3 electives).

Certified Safety and Health Official

Choose from General Industry or Construction.

Complete this certification with just six (6) core courses plus two (2) elective courses.

Safety, Health and Environmental Professional

A CSHO must obtain as a part of earning a SHEP. In addition to the required CSHO classes, one (1) course in Risk Management, one (1) course in Environmental, and one (1) elective must be completed

Professional Certifications Enhance Your Career

Get Started

Advance your career by earning a credential with an industry recognized certification:

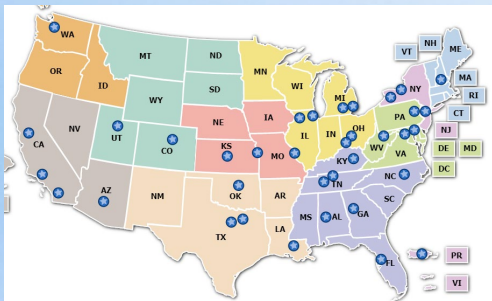

- > Construction Industry
- > Health Care
- > Public Sector
- > General Industry

Totals		10,576	929		19,204	
Average of all OTIECs		407	36	11	739	21
YTD Totals projected for all of FY 2022		42,304	3,716			
*Each OTI Education Center Goal: 1,700 students trained, 95 courses conducted						

All OTI Education Centers (OTIECs) are required to develop and maintain controls necessary to ensure and verify the accuracy of the number of students trained, validate the attendance of each student for each day of the course, verify students meet all applicable prerequisite requirements, ensure student surveys are completed and confirm that instructors meet appropriate requirements.

On 11/5/21, the following documentation for five courses recently facilitated by the GPOEC were audited by OSHA DTE: 1) daily sign-in sheets, 2) verification of prerequisite qualifications for each student, 3) student surveys, and 4) Instructor qualifications to include: documentation that the instructor has completed 30 hours of occupational safety and health training within the last five years, and has completed at least seven hours of training in the subject area of teaching adults within the last five years.

OSHA recently reviewed attendance documentation for five courses presented by Great Plains OSHA Education Center (GPOEC) during FY 2021Q4. All required documentation was completed in accordance with program policy and procedures.

“Great Plains is to be commended for its outstanding performance in maintaining the necessary control systems to certify that data reported to OSHA is accurate and student attendance documents comply with OSHA policy.”

Partnering with Other Barton Programs

- The OSHA Program supports the Hazardous Materials Management Program (Lindsay Holmes) in the PETE 80hr Hazardous Waste Worker Training (HWWT) Agreement with instruction by OSH Program faculty and generation of OSHA DTE Certificates for 15 OSHA classes
 - Only an OTIEC can issue OSHA DTE Certificates
 - Without our designation an OTIEC, we would be unable to meet the terms of the current HWWT agreement with PETE
- The OSHA Program supports the WTCE Welding Program (Mary Foley) in facilitating the OSHA 10hr General Industry class once per Semester
 - One hour per day over a 12-day period
