

Naming of College Buildings and Facilities

L.L. Alban Transportation Training Center

Detail: The authority to accept naming gifts for College Buildings and Facilities shall lie with the Board of Trustees. The Board of Trustees shall allow for naming opportunities based upon:

- Sufficient Monetary Gift
- Honorary Recognition
- (Other reasons trustees may wish to provide naming opportunity)

A pledge from the Foundation to the College has been made for the CDL Shop and Testing Pad to be designated as the L.L. Alban Transportation Training Center, in accordance with College Procedure 2202, requiring Board of Trustee approval to reserve naming rights of buildings, areas, or rooms on Barton campuses. Lindsey and the Foundation certify that a pledge has been made to the Grow With Us capital campaign to make this reservation congruent to the requirements within the policy calculations for donation amount. The Foundation Board of Directors approved this gift in their February board meeting.

Lois Alban left a significant unrestricted gift to the Foundation at her passing, the earnings from the permanently endowed funds to be used they are needed by the College and Foundation. Lois, along with her husband, have a scholarship in their memory, called the G.E. and Lois Alban Academic Scholarship, which was started in 1994, and she had supported every large capital project since the early 2000s, including the Library renovation, Fine Arts renovation, and Technical building. She and her husband owned and operated Parts, Inc., for years and had a special love for our automotive, business, and fine arts programs.

Recommendation: It is recommended that with the Foundation's certification, the Board of Trustees approve the naming of the L.L. Alban Transportation Training Center at the March 26th Board of Trustee meeting.
